

Model OT-ES008

Industrial Ethernet Switch

Product Datasheet

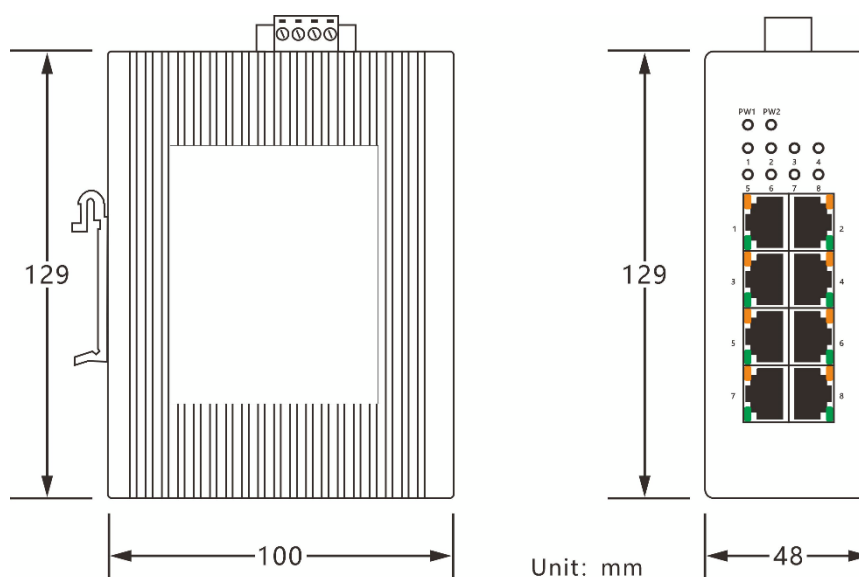

OT-ES008 Industrial Ethernet Switch supports 8 x 10/100Base-TX RJ45 port. Its wide operating temperature range and port surge protection make it ideal for high-traffic, real-time outdoor environments. This switch is widely applicable in industrial automation, roadways, schools, residential communities, rail transport, and power monitoring systems.

Features

- ◆ Comply with IEEE802.3/802.3u/802.3x store-and-forward mechanism
- ◆ All ports are capable of wire-speed forwarding to ensure non-blocking message transmission
- ◆ Features port auto-flip (Auto MDI/MDIX) function
- ◆ Support redundant power input with overload and reverse polarity protection
- ◆ Support full-load operation in a temperature range of -40°C to 85°C
- ◆ Low power consumption with a fanless design
- ◆ Level 4 Industrial Design

Dimension

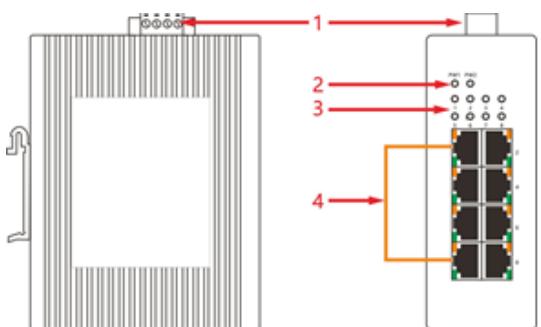

Note: Dimension error value ± 1 mm

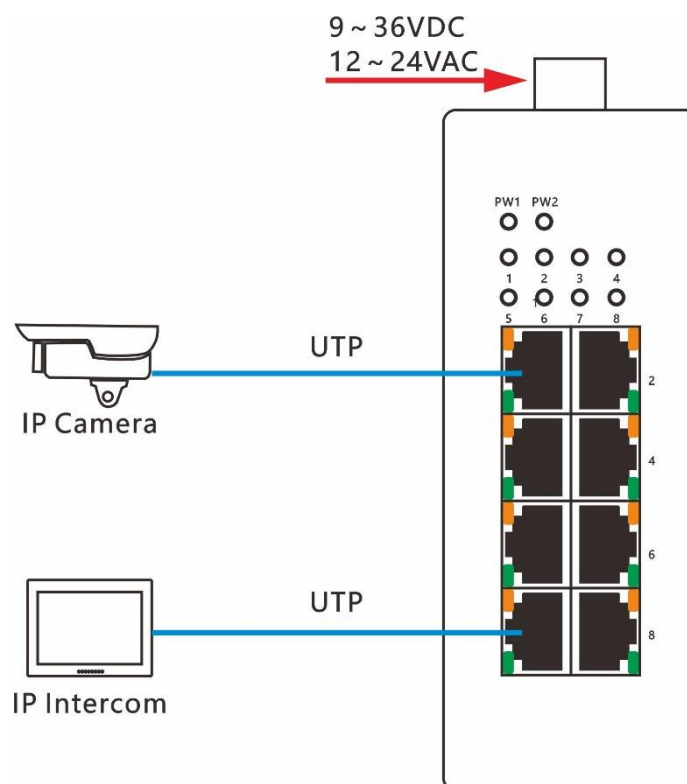

Technical Parameter

Category		Description
Interface	RJ45 Port	10/100Base-TX, auto-negotiation
	Power Interface	5.08mm industrial terminal
Standards Conformance	Standards Compliance	IEEE802.3、IEEE802.3u、IEEE 802.3x
Power	Power Input	12-24VAC / 9-36VDC redundant input
	Overload Protection	Support
Mechanical Characteristic	Enclosure	High-strength corrugated profile case
	Protection Rating	IP40
	Installation	DIN-rail mounting
	Weight	353g/PC
Switching Characteristic	Architecture	Store and forward
	Switching Bandwidth	1.8G
	MAC Address	2K
Operating Environment	Operating Temperature	-40℃~85℃
	Storage Temperature	-45℃~85℃
	Operating Humidity	< 95% (Non-condensation)

Installation Instructions

		NO	Step
		1	Low voltage power input port, please pay attention to the polarity (1)
		2	Power status indicator (2)
		3	Network link indicator (3)
		4	Network port interface (4)
